You are holding the latest edition of our catalogue in Japanese and Korean furniture items.

Having lived in South Korea and Japan for several years we have made many valuable, personal contacts. Consequently, we are in a position to offer you traditional Korean and Japanese furniture in excellent quality, imported directly from Korea.

The Korean craftsmen are known around the world for their capabilities. These newly fabricated furniture items are partly copies from original antiques, which nowadays can only be seen in museums. Furniture in Japanese style (Step Tansu, Kuruma Tansu) are copied from originals brought to Korea in the beginning of the 20th century.

The following pages give you an overview of available items, grouped by "theme". We would like to draw your attention to the fact, that the colours in this catalogue are slightly altered by the printing process and invite you to view the originals. Also, it is important to take note of the exact measurements, as the photos are not in proportion to each other.
